

LOUISIANA PUBLIC SERVICE COMMISSION
PROPOSED SUPPLEMENTAL AGENDA
OPEN SESSION B & E
AUGUST 21, 2013, 9:00 AM
GALVEZ BUILDING, NATCHEZ ROOM, ROOM C-109

Ex. 22 Net Metering Directive from Chairman Skrmetta

Skrmetta _____
Holloway _____
Campbell _____
Boissiere _____
Angelle _____

The Commission voted at its June 26, 2013 B & E to make the 0.5% threshold found in Section 5.02 of the Commission's net metering rules a hard cap on net metering installations. A General Order memorializing this change was issued July 26, 2013. Despite the two years notice since this threshold was adopted in July 2011, I understand there are customers that either purchased or leased equipment at a time when the interconnecting utility was not required to provide net metering. Out of sensitivities to those customers, I hereby direct utilities to do the following:

1. Accept net metering applications from otherwise eligible customers that have, as of this date, executed contracts for the purchase, lease, or installation of solar panels.
2. On a going forward basis, take all reasonable steps to notify customers when net metering installations have reached 75% and 100% of the 0.5% cap. At a minimum, this will include a clear, concise message on the utility's website or in a bill insert.
3. Make reasonable attempts to notify companies that sell, lease or install solar panels that the Company is approaching or has approached its net metering cap.

At the request of Commissioner Skrmetta.
